

Preliminary Program

Wednesday 20 November 2024			
Speakers dinner	18:00	by invitation only	
Thursday 21 November 2024			
Opening	09:00 – 09:15	Wellcome / Opening ceremony	
Scientific / Educational session	09:15 – 10:00	Overview / Guidelines for CAR-T in auto immune disease	
	10:10 - 10:30	CAR-T in MM	How to collect the correct cell for CAR-T
	10:40 - 11:10	CAR-T in solid tumors	A guide to the collection of T-cells by apheresis for ATMP manufacturing
	11:10 - 11:40	CAR-T: allo donor	Informed consent for cell donors
Break	11:40 - 12:10	Coffee / tea break	
Scientific / Educational session	12:10 - 13:00	ABSTRACT-session 1	ABSTRACT-session 2
Lunch	13:00 - 14:00	Lunch symposium	Lunch symposium
Scientific / Educational session	14:00 - 14:30	Red Blood Cell Exchange indications (SCD, Malaria, Pertusis)	CD34+ therapy in Multiple sclerosis
	14:30 - 15:00	Red Blood Cell Exchange: one versus two arm system	CD34 gene therapy in Sickle Cell Disease / Thallasaemia
	15:00 - 15:30	Red Blood Cell Exchange: Exchange vs Depletion + Exchange vs Depletion	CD34 gene therapy in Metachromatic Leukodystrophy and Hurlers Disease
Break	15:30 - 16:00	Coffee / tea break	

Scientific / Educational session	16:00 - 16:30	TBD STEM CELLS
	16:30 - 16:45	Effect of Daratumimab on the collection of CD34+ cells
	16:45 - 17:00	CD34+ testing (fast vs normal determination)
	17:00 - 17:30	Pro / Con: MNC versus cMNC in CD34+ cell collection
Poster and drinks	17:30 -19:00	
Social event & dinner	19:30 - 23:00	Madurodam / The Hague by night

Friday 22 november 2024			
Plenary session	09:00 - 09:45	Where do we come from and where to go too	
	09:45 - 10:30	Apheresis for gene therapy: near future considerations what is possible	
Break	10:30 - 11:00	Coffee / tea break	
Scientific / Educational session	11:00 - 12:30	SCD in pediatric patients: trial RBCx vs regular top-up	Tandem apheresis with CVVH / Dialyse / ADA sorb
	11:30 - 12:00	CD34+ cell collections in pediatrics	Apheresis in pre-organ transplant situation (ABO incompatibility, HLA-ab, bridging therapy)
	12:00 - 12:30	Nursing aspects in pediatric apheresis procedures	Apheresis in post-organ transplant situation (ABO incompatibility, humoral rejection)
Lunch	12:30 - 13:30	Lunch session with a Sponsor	Lunch symposium with a sponsor
Scientific / Educational session	13:30 - 15:00	TPE in patients with Myasthenia Gravis	Donor with fever; start CD34+ cell collections?
	14:00 - 14:30	TPE in patients with CIDP/NMO/Encefalitis	Donor issues in granulocyte donors
	14:30 - 15:00	TPE in TTP patients in the Caplacizumab era	Optimalisation of the donor pre apheresis: tips and tricks
Break	15:00 - 15:30	Coffee / tea break	
Pro/Con	15:30 - 16:00	PRO-CON: Yes or No apheresis in ANCA glomerulonephritis	
	16:00 - 16:30	Closing Ceremony & Adjourn
